Checklist:

- **Functionality Requirements:**

- + Text input fields present (First Name, Last Name, Email, Date of Birth): `<input type="text">` to fill in name; `<input type="email">` only allows email form e.g. tmy00037@gmail.com; `<input type="date">` to pick the date.
- + Radio buttons work correctly for "How did you hear about us?": Use `<input type="radio" name="source" ...>` — they share the same name, so only one can be selected.
- + Checkboxes function properly for announcements preferences: Use `<input type="checkbox">` — user can tick any combination
- + Dropdown/select menu implemented for contact method: `<select>` and `<option>` tags.
- + Submit button: `<input type="submit" value="Submit">`

Exercise 3:

Explanation:

- + `display: flex;` : turns an element into a flex container.
- + `flex-direction: column;` : arranges the child items inside the container vertically.
- + `flex-direction: row;` : arranges the child items horizontally.
- + `flex: 1;` ; that is `flex-grow: 1;`, `flex-shrink: 1;`, and `flex-basis: 0%;`. The elements must take up all the available free space within its container.
